**Patents** Showing:

Patents **31 - 40** on **computer application policy power control**. (0.21 seconds)

**Sort by relevance** | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

[\[APPLICATION\] Integrated circuit \*\*power\*\* management \*\*control\*\*](#)

US Pat. App 11/113,310 - Filed Apr 25, 2005 - ARM LIMITED

The **power** management kernel 16 uses the type of execution point indication to determine which of a plurality of **power** management policies (**Policy** 1, ...

[Method and apparatus for providing a decoupled \*\*power\*\* management state](#)

US Pat. 6848057 - Filed May 28, 2002 - nVidia Corporation

As such, the **power** state **control** registers 140 (including associated methods and data structures) of the present invention can be stored on a **computer** ...

[Method and apparatus for assigning tasks in a distributed server system](#)

US Pat. 6223205 - Filed Feb 13, 1998

The same holds true more generally for any **application** where a **computer** system 35 ... **policy** decisions must be made as to how to assign the requests for ...

[Disk array controller for performing exclusive or operations](#)

US Pat. 5737744 - Filed Oct 13, 1995 - Compaq Computer Corporation

The local Battery backing is necessary as the host **computer** system processor ... by a **power control** circuit 146 connected tions. to lithium batteries 144. ...

[\[APPLICATION\] Server apparatus, communication \*\*control\*\* method and program](#)

US Pat. App 11/317,074 - Filed Dec 27, 2005

This **policy** is previously notified to the server **computer** 1 by the user ... when in **power** save mode, thus decreasing the frequency of connection requests. ...

[Managing interference in channelized cellular systems](#)

US Pat. 6259922 - Filed Mar 9, 1998 - AT&T Corp

7 provides a graphical depiction of the mixed **power control policy** of the ... and symbolic representations of operations on data within a **computer** system. ...

[Software-based sleep \*\*control\*\* of operating system directed \*\*power\*\* management ...](#)

US Pat. 6446213 - Filed Aug 31, 1998 - Kabushiki Kaisha Toshiba

To **control** the temperature of the CPU 11 is to monitor the temperature of the

... In the S5 state, the supply of **power** to the **computer** system is stopped, ...

Dynamic **power control** apparatus, systems and methods

US Pat. 7082373 - Filed Aug 23, 2004 - Microsoft Corporation

As used in this **application**, the term "**computer** component" is intended to ...  
and the user has specified, through **policy**, that it is okay to **power** down the ...

Keyless flat panel portable **computer--computer** aided notebook

US Pat. 5049862 - Filed Oct 6, 1989 - Communication Intelligence Corporation ("CIC")

The opaque digitizer 22 is used to fill out a form (such complete the cycle;  
otherwise, it returns (Step E). as an insurance **policy application**), ...

Access **control** management system utilizing network and **application** layer ...

US Pat. 7054944 - Filed Dec 19, 2001 - Intel Corporation

If **policy** server 38 determines that a server **computer** is capable of performing  
... the access **control** ACLs, for both **application** layer computers and network ...
